Dear Dr Lim.

We are writing this letter to commend you on the good medical and customer service that you and your staff have been extending to our employees.

We have been working closely for the past ten years and we are very pleased with your service. We have been receiving very positive feedback about you being a friendly and personal doctor. In fact quite a number of our employees have become your friends. This is something that does not happen at most clinics and we are certainly impressed.

Keep it up and we certainly look forward to many more years of medical expertise from you.

Best Regards

Yours sincerely,

Selena Ong
Human Resource & Administration Manager
